

## Research Department

Through the Continuation Service, the services of the Research Department of the American City Bureau are always available. Three special reports a year are due the organization but the full use of the department is invited for reports not requiring special investigations. Through its connection with the Chambers of Commerce of the United States and Canada and the training of its experts, practiced in the use of a wide range of sources of information, data usually beyond the ready acquisition of the secretary is made available. Use of the services of this staff of twelve people again is dependent upon the initiative of the local organization.
